Yale University Press, United States, 1991. Paperback. Book Condition: New. New edition. 226 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Civilized nations popularly assume that primitive societies are poor, ill, and malnourished and that progress through civilization automatically implies improved health. The subject of culture and health is near the core of a lot of areas of archaeology and ethnology as well as demography, development economics, and so on. The book deserves a wide readership and a central place in our professional libraries. As a scholarly...
