

Nothing Was Ever Normal: Memoirs of a Pioneer in the United States Missile and Space Programs

Filesize: 1.46 MB

Reviews

Good e-book and useful one. It typically does not expense an excessive amount of. I am just delighted to tell you that this is basically the finest book we have read during my very own existence and could be the best ebook for actually.

(Audra Hodkiewicz)

NOTHING WAS EVER NORMAL: MEMOIRS OF A PIONEER IN THE UNITED STATES MISSILE AND SPACE PROGRAMS

iUniverse, United States, 2014. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In the heady days of the early 1960s, the United States found itself perched on the edge of technological, sociological, and societal precipices. Advances made by its enemies with offensive ballistic-missile systems put America in catch-up mode, both on Earth and in orbit. Others were leading the race to space, and that was an affront to American safety, status, and national pride. For the men and women employed as top-secret research workers at the General Motors Division, secrecy was a way of life. The projects they worked on including Project Jennifer, Big Bird, Thor, Titan missiles, Matador, Regulus, the stealth fighter, and the Fastest Gun in the West were cloaked in the highest security possible. In their labs, the Lunar Rover, Apollo Guidance, and the complex, multinational F-16 systems were born. Don Peeler was a typical engineer in this high-stress environment, but his personal experiences were atypical. During his years at the General Motors Division, he experienced events that ran from the humorous to the heroic, and in *Nothing Was Ever Normal*, he shares his best memories of those days. For Don and his peers, there was no normal or any such thing as standard operating procedures, because what was occurring had never been experienced before. Compared to NASA's Manned Space Program, their glory came from knowing that what they were doing was essential to the security of the United States. Now that their classification designations have lapsed, the stories of the Band of Others can finally be told. Don Peeler was one of thousands of bright engineers who helped America dominate space during the Cold War and beyond. He endured sleepless nights fueled by coffee and...
