# A TREATISE ON ELECTRICITY AND MAGNETISM

Cambridge University Press. Paperback. Book Condition: New. Paperback. 484 pages. Dimensions: 8.3in. x 5.5in. x 1.3in. Arguably the most influential nineteenth-century scientist for twentieth-century physics, James Clerk Maxwell (1831-1879) demonstrated that electricity, magnetism and light are all manifestations of the same phenomenon: the electromagnetic field. A fellow of Trinity College Cambridge, Maxwell became, in 1871, the first Cavendish Professor of Physics at Cambridge. His famous equations - a set of four partial differential equations that relate the electric and magnetic fields...

## Reviews

*This pdf is really gripping and interesting. We have go through and that i am confident that i will planning to read yet again once again later on. You wont feel monotony at at any time of your time (that's what catalogs are for relating to in the event you question me).*

-- **Miss Madisyn Gulowski**

*An extremely great publication with perfect and lucid answers. It really is writter in straightforward phrases and never hard to understand. You can expect to like how the author write this publication.*

-- **Michaela Cruickshank III**

*Absolutely essential go through publication. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of the time (that's what catalogues are for regarding if you ask me).*

-- **Ambrose Thompson II**
