

Instructional Technique to Develop Technical Skills, Awareness, Attitude In Engineers and Technicians of the Third World

By Frank Sikapa

AuthorHouse. Paperback. Book Condition: New. Paperback. 152 pages. Dimensions: 9.1in. x 6.1in. x 0.4in. This book is meant to increase your knowledge in developing your diagnostic skills, the need of awareness and provide positive attitude towards work and people. The book also enhances the relationship and the role among all technicians and engineering staff and extends such practice to other areas including the development of positive attitude towards all members of the organization. The book defines Positive Action in a simple but understanding way often missed in major books. Members of the developing nations and the third world will find the book and the information contained within the pages extremely valuable. This is one of the few books well written to incorporate the study and experience of a person in a specialized technical field including Dialysis and the role of engineers and technicians within such complex. Learning skills, mental approach, management, training and the maintenance of organization are just but a few lessons discussed in detail and to be learned. Decoding symptoms and figuring out how to tackle faults in a systematic and orderly manner is made easy to comprehend. This is what this book is all about. Simplicity, A to...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Barney Robel Jr.
